THE NIGHT SKY

Every night before I go to bed, I look out my window at the night sky. The night sky is very beautiful. The stars and the moon are so bright. It is nice to look at the sky at night. I have a book about the night sky. It has pictures of the moon and the stars. Sometimes I try to find a special star that I read about in my book. Looking at the sky at night is so much fun. On clear nights, my dad and I go outside and look at the stars.
